

## **Annex E: Infectious Disease/Pandemic Emergency**

As the COVID-19 pandemic surged around the world, healthcare policy makers, management and staff have had to recognize a risk that was talked about, but never really prepared for. Complicating the response further was that this pandemic was caused by a new pathogen, (novel virus), and to which there was no natural immunity or vaccination. We are still learning about how this disease is transmitted, which population is the most vulnerable and the best course of treatment. The most terrible aspect of the experience so far is that COVID-19 takes a terrible toll on the elderly and those sick with co-morbidities. As such, Skilled Nursing Facilities congregate care setting were especially at risk during this outbreak. As a result of this, the State and Federal governments have enacted additional requirements for the safe operation of a home. This document lays out the required elements of new legal and regulatory responsibilities during a pandemic.

**(R)** = Required Element

\* NYSDOH regulation indicates both required and recommended elements need to be addressed in PEP

### **Preparedness Tasks for all Infectious Disease Events**

#### **1. Staff Education on Infectious Diseases (R)**

- The Facility Infection Preventionist (IP) in conjunction with Inservice Coordinator/Designee, must provide education on Infection Prevention and Management upon the hiring of new staff, as well as ongoing education on an annual basis and as needed should a facility experience the outbreak of an infectious disease.
- The IP/ Designee will conduct annual competency-based education on hand hygiene and donning/doffing Personal Protective Equipment (PPE) for all staff.
- The IP in conjunction with the Inservice Coordinator will provide in-service training for all staff on Infection Prevention policies and procedures as needed for event of an infectious outbreak including all CDC and State updates/guidance.

#### **2. Develop/Review/Revise and Enforce Existing Infection Prevention Control, and Reporting Policies (R)**

The facility will continue to review/revise and enforce existing infection prevention control and reporting policies. The Facility will update the Infection Control Manual, which is available in print form for all staff, annually or as may be required during an event. The IP will periodically review CDC, NYSDOH and Nassau County websites for updates on infection control guidelines. As needed, the IP will update existing infection prevention policies.

#### **3. Conduct Routine/Ongoing, Infectious Disease Surveillance**

- On an ongoing basis the IP will review all resident infections as well as the usage of antibiotics so as to identify any trends and areas for improvement. All concerns will be reported to the DNS and Medical Director immediately and at a minimum, monthly reports are submitted to the Medical Director and the Director of Nursing. The IP will present findings to the Quality Assurance (QA) Committee.

- At the Morning Report meetings, the IP will discuss with the IDT any trends or concerns regarding infection control and prevention identified. Corrective actions will be planned and implemented as issue/concerns arise.
- As needed, the IP/Designee, Director of Nursing (DNS) and/or members of the QA committee will establish Quality Assurance Performance Projects (QAPI) to identify root cause(s) of infections and update the facility action plans, as appropriate. The results of this analysis will be reported to the QA committee.
- All staff are to receive annual education as to the need to report any change in resident condition to supervisory staff for follow up.
- The IP/designee will identify the rate of infectious diseases and identify any significant increases in infection rates and will be addressed.
- Facility acquired infections will be tracked/reported by the Infection Preventionist.
- During an event, the IP will review daily infection data posted on CDC, NYSDOH and Nassau County websites. Prevalence rates will be compared to this facility's data.

*Reference:*

*Policy and Procedure Infection Control: Surveillance*

#### **4. Develop/Review/Revise Plan for Staff Testing/Laboratory Services**

- The Facility will conduct staff testing, if indicated, in accordance with NYS regulations/recommendations for a given infectious agent.
- The facility shall have prearranged agreements with laboratory services to accommodate any testing of residents and staff including consultants and agency staff. These arrangements shall be reviewed by administration not less than annually and are subject to renewal, replacement or additions as deemed necessary. All contacts for labs will be updated and maintained in the communication section of the Emergency Preparedness Manual.
- IP /Designee will check daily for staff and resident testing results and take action in accordance with State and federal guidance.

*Reference:*

*Policy and Procedure Infection Control: Staff and Resident Testing*

*Vendor List in Emergency Management Plan (EMP)*

#### **5. Staff Access to Communicable Disease Reporting Tools (R)**

- The facility has access to Health Commerce System (HCS), and all roles are assigned and updated as needed for reporting to NYSDOH.
- The following Staff Members have access to the NORA and HERDS surveys: Administrator, Director of Nursing, IP, Assistant Director of Nursing and Assistant Administrator. Should a change in staffing occur, the replacement staff member will be provided with log in access and Training for the NORA and HERDS Survey
- The DNS/Designee will enter any data in HERDS and NHSN as per CMS/CDC and NYSDOH guidance.

*Reference:*

*Annex K Section 1 Communicable Disease Reporting*

*Facility Assessment*

**6. Develop/Review/Revise Internal Policies and Procedures for Stocking Needed Supplies**

**(R)**

- The Medical Director, Director of Nursing, IP, Central Supply Coordinator and/or other appropriate personnel/designees will review the Policies for stocking needed supplies.
- The facility has contracted with Pharmacy Vendor to arrange alternate supply of resident medications to be delivered should there be a Pandemic Emergency.
- The facility has established par Levels for Environmental Protection Agency (EPA) approved environmental cleaning agents based on pandemic usage.
- The facility has established par Levels for PPE.

*Reference:*

*Policy and Procedure on Personal Protective Equipment Emergency Supply of PPE*

*Policy and Procedure on Subsistence*

*Vendor list/Contracts in EMP (Emergency Management Plan)*

*Memo from contracted pharmacy on file*

**7. Develop/Review/Revise Administrative Controls with regards to Visitation and Staff Wellness**

- Staff are educated to self monitor for symptoms, staying home and reporting symptoms to their supervisor based on NYSDOH guidelines/regulations at least annually and with each event.
- All sick calls will be monitored by Department Heads to identify any staff pattern or cluster of symptoms associated with infectious agent. Each Dept will keep a line list of sick calls and report any issues to IP/Designee.
- The facility will follow NYSDOH guidelines/regulations on screening staff as they enter the facility. During a Pandemic the facility will conduct symptom checks and thermal screening in the lobby of the facility. Staff that fail the screening will be sent home immediately and provided with education on the return to work procedure.
- Visitors will be informed of any visitation restriction related to an Infection Pandemic and visitation restriction will be enforced/lifted as allowed by NYSDOH.
- A contingency staffing plan is in place that identifies the minimum staffing needs and prioritizes critical and non-essential services, based on residents' needs and essential facility operations. The staffing plan includes collaboration with local and regional DOH planning and CMS to address widespread healthcare staffing shortages during a crisis.

*Reference:*

*Policy and Procedure Visitation Guidelines during Pandemic*

*Policy and Procedure Infection Control Staff Screening*

*Policy and Procedure Sunharbor Emergency Staffing*

**8. Develop/Review/Revise Environmental Controls related to Contaminated Waste (R)**

- Areas for contaminated waste are clearly identified as per NYSDOH guidelines
- The facility environmental coordinator shall follow all Department of Environmental Conservation (DEC) and DOH rules for the handling of contaminated waste. The onsite storage of waste shall be labeled and in accordance with all regulations. The handling policies are available in the Environmental Services Manual. Any staff involved in

handling of contaminated product shall be trained in procedures prior to performing tasks and shall be given proper PPE.

- The facility will amend the Policy and Procedure on Biohazardous wastes as needed related to any new infective agents.

*Reference: Policy and Procedure on Handling of Biohazardous Waste Material*

**9. Develop/Review/Revise Vendor Supply Plan for food, water, and medication (R)**

- The facility currently has a 3-4 days' supply of food and water available. This is monitored on a quarterly basis to ensure that it is intact and safely stored/available.
- The facility has adequate supply of stock medications for 4-6 weeks.
- The facility has access to a minimum of 2 weeks supply of needed cleaning/sanitizing agents in accordance with storage and NFPA/Local guidance. The supply will be checked each quarter and weekly as needed during a Pandemic. The Department head will be responsible for monitoring their supplies and reporting to Administrator/designee any specific needs and shortages.

*Reference:*

*Policy & Procedure Subsistence Food/Water/Sanitizing and Cleaning Agents in EMP*

*Memo from contracted pharmacy on file*

**10. Develop Plans to Ensure Residents are Cohorted based on their Infectious Status (R)**

- All efforts are made to isolate/cohort residents based on their infection status in accordance with applicable NYSDOH and Centers for Disease Control guidance.
- The facility Administration maintains communication with NYSDOH Regional epidemiologist, Nassau County DOH, NYS DOH, and CDC to ensure that all new guidelines and updates are being adhered to with respect to Infection Prevention.
- The Cohort will be divided into three groups, if indicated by NYSDOH, CMS and CDC: Unknown, Negative, and Positive as it relates to the infectious agent.
- The resident will have a comprehensive care plan developed indicating their Cohort Group and specific interventions needed.

*Reference: Policy and Procedure on Infection Control: Cohorting*

**11. Develop a Plan for Cohorting residents using a part of a unit, dedicated floor or wing, or group of rooms**

- Depending on prevalence, the Facility will dedicate a wing or group of rooms at the end of a unit in order to Cohort residents. This area will be clearly demarcated as isolation area.
- Appropriate transmission-based precautions will be adhered to for each of the Cohort Groups as stipulated by NYSDOH.
- Staff will be educated on the specific requirements for each Cohort Group.
- Residents that require transfer to another Health Care Provider will have their Cohort status communicated to provider and transporter and clearly documented on the transfer paper work.

- All attempts will be made to have dedicated caregivers assigned to each Cohort group and to minimize the number of different caregivers assigned.

*Reference: Policy and Procedure on Infection Control: Cohorting*

## **12. Develop/Review/Revise a Plan to Ensure Social Distancing Measures**

- The facility will review/ revise the Policy on Social Distancing during a Pandemic to ensure that Social Distancing is adhered to in accordance with State and CDC guidance.
- The facility will review/revise the Policy on Recreational Activities during a Pandemic to ensure that Social Distancing is adhered to in accordance with State and CDC guidelines. Recreation Activities will be individualized for each resident.
- The facility will ensure staff break rooms and locker rooms allow for social distancing of staff.
- Staff meetings may be limited or conducted via web or phone conference calls to allow for social distancing as per NYSDOH guidance.
- All staff will be re-educated on these updates as needed.

*Reference: Policy and procedure Infection Control: Social Distancing  
Policy and procedure Recreation Needs During a Pandemic*

## **13. Develop/Review/Revise a Plan to Recover/Return to Normal Operations**

- The facility will adhere to directives as specified by, State and CDC guidance at the time of each specific infectious disease or pandemic event e.g., regarding how, when, which activities/procedures/restrictions may be eliminated, restored and the timing of when those changes may be executed.
- The facility will maintain communication with the local NYSDOH and CMS and follow guidelines for returning to normal operations. The decision for outside consultants will be made on a case by case basis taking into account medical necessity and infection levels in the community. During the recovery period residents and staff will continue to be monitored daily in order to identify any symptoms that could be related to the infectious agent.

*Reference: Pandemic Recovery/Transition Statement  
Infection Control: Staff Screening*

## **Additional Preparedness Planning Tasks for Pandemic Events**

### **1. Develop/Review/Revise a Pandemic Communication Plan (R)**

- The Administrator in conjunction with the Social Service Director will ensure that there is an accurate list of each resident's Representative, and preference for type of communication.
- Communication of a pandemic includes utilizing established Staff Contact List to notify all staff members in all departments.
- The Facility will update website on the identification of any infectious disease outbreak of potential pandemic.

**Refer to Section of PEP Additional Response Communication and Notifying Families/  
Guardians and Weekly Update page 8**

*Reference: Policy and Procedure: Communication with Residents and Families During Pandemic, List of resident representatives/contact information, and Staff Contact List in EMP*

**2. Develop/Review/Revise Plans for Protection of Staff, Residents, and Families Against Infection (R)**

- Education of staff, residents, and representatives
- Screening of residents
- Screening of staff
- Visitor Restriction as indicated and in accordance with NYSDOH and CDC
- Proper use of PPE
- Cohorting of Residents and Staff

*Reference: Policy and Procedure Infection Control: Infection Control Program*

**Response Tasks for All Infectious Disease Events**

**1. Guidance, Signage, Advisories**

- The facility will obtain and maintain current guidance, signage advisories from the NYSDOH and the U.S. Centers for Disease Control and Prevention (CDC) on disease-specific response actions.
- The IP/Designee will ensure that appropriate signage is visible in designated areas for newly emergent infectious agents
- The IP/Designee will be responsible to ensure that there are clearly posted signs for cough etiquette, hand washing, and other hygiene measures in high visibility areas.

*Refer to the CDC website for Signage download*

*Reference: Policy and Procedure on Infection Control: Infection Control Program*

**2. Reporting Requirements (R)**

- The facility will assure it meets all reporting requirements for suspected or confirmed communicable diseases as mandated under the New York State Sanitary Code (10 NYCRR 2.10 Part 2), as well as by 10 NYCRR 415.19 (see Annex K of the CEMP toolkit for reporting requirements).
- The DNS/IP or designee will be responsible to report communicable diseases via the NORA reporting system and HERDS on the HCS as directed by NYSDOH.
- The DNS/IP or designee will be responsible to report communicable diseases on NHSN as directed by CMS.

*Refer to Annex K CEMP for reportable diseases*

*Reference: policy and Procedure in Infection Control: Infection Control Program*

**3. Signage: The facility will post internal signage as indicated and accordance with guidance from CMS, NYSDOH, and CDC**

*(Refer to Guidance, Signage, Advisories)*

#### 4. **Limit Exposure**

- The facility will implement the following procedures to limit exposure between infected and non-infected persons and consider segregation of ill persons, in accordance with any applicable NYSDOH and CDC guidance, as well as with facility infection control and prevention program policies.
- Facility will Cohort residents according to their infection status based on infection control standards.
- Facility will monitor all residents to identify symptoms associated with infectious agent.
- Units will be quarantined in accordance with NYSDOH and CDC guidance and every effort will be made to cohort staff.
- Facility will follow all guidance from NYSDOH regarding visitation, communal dining, rehabilitation services and activities and update policy and procedure and educate all staff.
- If needed, facility will centralize and limit entryways to ensure all persons entering the building are screened and authorized.
- Hand sanitizer will be available on entrance to facility, exit from elevators, and according to NYSDOH and CDC guidance
- Daily Housekeeping staff will ensure adequate hand sanitizer and refill as needed.

*Reference: Policy and Procedure on Infection Control: Cohorting*

#### 5. **Separate Staffing**

- The facility will implement procedures to ensure that as much as is possible, separate staffing is provided to care for each infection status cohort, including surge staffing strategies.

*Reference: Policy and Procedure on Infection Control: Cohorting*

#### 6. **Conduct Cleaning/Decontamination**

- The facility will conduct cleaning/decontamination in response to the infectious disease utilizing cleaning and disinfection product/agent specific to infectious disease/organism in accordance with any applicable NYSDOH, EPA, and CDC guidance.

*Reference: Policy and Procedure Environmental Cleaning /Disinfection and Terminal Room Cleaning*

#### 7. **Educate Residents, Relatives, and Friends About the Disease and the Facility's Response (R)**

- The facility will implement procedures to provide residents, relatives, and friends with education about the disease and the facility's response strategy at a level appropriate to their interests and need for information. This may be through various means of communication including website updates/posts, posting in facility, flyers, direct communication, automated calls, hotline messages etc.
- As per NYSDOH guidance, as indicated, residents will receive updated information on the infective agent, mode of transmission, requirements to minimize transmission, and all changes that will affect their daily routines.

*Reference: Policy and Procedure on Communication During a Pandemic*

**8. Policy and Procedures for Minimizing Exposure Risk** (Refer to section 4)

- The facility will contact all staff including Agencies, vendors, other relevant stakeholders on the facility's policies and procedures related to minimizing exposure risks to residents and staff.
- If indicated, consultants that service the residents in the facility will be notified and arrangements made for telehealth, remote chart review, or evaluating medically necessary services until the recovery phase according to State and CDC guidelines.

*Reference: Policy and Procedure Telehealth Services and Vendor Delivery Services*

**9. Advise Vendors, Staff, and other stakeholders on facility policies to minimize exposure risks to residents (R)**

- Subject to any superseding New York State Executive Orders and/or NYSDOH guidance that may otherwise temporarily prohibit visitors, the facility will advise visitors and vendors to limit/discontinue visits to reduce exposure risk to residents and staff.
- If indicated, emergency staff including EMS will be informed of required PPE to enter facility
- If indicated, vendors will be directed to drop off needed supplies and deliveries in a designated area to avoid entering the building.
- The facility will implement closing the facility to new admissions in accordance with any NYSDOH directives/recommendations and/or as determined by the facility's QA committee relating to disease transmission.

*Reference:*

*Policy and Procedure on Visitation during a Pandemic*

*Policy and Procedure on Vendor Delivery Services and Vendor Contact List in EPM*

**10. Limiting and Restriction of Visitation (R)**

- The facility will limit and or restrict visitors as per the guidelines from the NYSDOH
- Residents and Representatives will be notified as to visitation restrictions and/or limitations as regulatory changes are made.

*Reference: Policy and Procedure on Visitation during a Pandemic*

**Additional Response Tasks for Pandemic Events**

**1. Ensure Staff Are Using PPE Properly**

- Appropriate signage shall be posted at all entry points, and on each residents', door indicating the type of transmission-based precautions that are needed.
- Staff members will receive re-education and have competency done on the donning and doffing of PPE.
- Infection Control rounds will be made by Senior Nursing Leadership, Department Heads and designees to monitor for compliance with proper use of PPE.
- The facility has a designated person to ensure adequate and available PPE is accessible on all shifts and staff are educated to report any PPE issues to their immediate Supervisor

*Reference: Policy and Procedure Infection Control: Transmission Based Precautions*

**2. Post a Copy of the Facility's PEP (R)**

- The facility will post a copy of the facility's PEP in a form acceptable to the commissioner on the facility's public website and make available immediately upon request.
- The PEP plan will be available for review and kept in the Administration Office.

**3. The Facility Will Update Family Members and Guardians (R)**

- The facility will communicate with residents/representatives as per their preference i.e. email, text messaging, calls/robocalls and document all communication preference in the CCP/medical record.
- During a pandemic the facility will make every effort to communicate daily with the Representatives of residents that are infected.
- Representatives will be notified when a resident experiences a change in condition.
- Representatives will be notified weekly on the status of the pandemic at the facility including the number of pandemic infections.
- The notification will be updated and sent within 24 hours indicating any newly confirmed cases and/or deaths related to the infectious agent.
- Residents will be notified with regards to the number of cases and deaths in the facility unless they verbalize that they do not wish to be notified. This will be documented in the medical record/CCP
- All residents will be provided with daily access to communicate with their representatives. The type of communication will be as per the resident's preference i.e. video conferencing/telephone calls, and/or email.

*Reference:*

*Policy and Procedure Communication with Residents and Families During Pandemic  
Refer to CMS guidelines regarding a change in condition*

**4. The Facility Will Update Families and Guardians Once a Week (R) –**

*Refer to Section 3 Above*

**5. Implement Mechanisms for Videoconferencing (R)**

- The facility will provide residents with no cost, daily access to remote videoconference or equivalent communication methods with Representatives.
- The Director of Recreation/Designee will arrange for the time for all videoconferencing

*Reference:*

*Policy and Procedure Communication with Residents and Families During Pandemic  
Policy and Procedure on Recreational Needs of Residents during a Pandemic*

**6. Implement Process/Procedures for Hospitalized Residents (R)**

- The facility will implement the following process/procedures to assure hospitalized residents will be admitted or readmitted to such residential health care facility or alternate care site after treatment, in accordance with all applicable laws and regulations including but not limited to 10 NYCRR 415.3(i)(3)(iii), 415.19, and 415(i); and 42 CFR 483.15(e).

- Prior to Admission/readmission the RN assessor/designee and as necessary the DNS/ADNS will review hospital records to determine resident needs and facility's ability to provide care including cohorting and treatment needs.

*Reference: Policy and Procedure for Bed Hold/Safe Re-admission During a Pandemic*

#### **7. Preserving a Resident's Place (R)**

- The facility will implement processes to preserve a resident's place in a residential health care facility if such resident is hospitalized, in accordance with all applicable laws and regulations including but not limited to 18 NYCRR 505.9(d)(6) and 42 CFR 483.15(e).

*Reference: Policy and Procedure for Bed Hold/Safe Readmission During a Pandemic*

#### **8. The Facility's Plan to Maintain at least a two-month supply of Personal Protective Equipment (PPE) (R)**

- The facility has implemented procedures to maintain at least a two-month (60 day) supply of PPE (including consideration of space for storage) or any superseding requirements under New York State Executive Orders and/or NYSDOH regulations governing PPE supply requirements executed during a specific disease outbreak or pandemic.
- This includes, but is not limited to:
  - N95 respirators
  - Face shield
  - Eye protection
  - Isolation gowns
  - Gloves
  - Masks
  - Sanitizer & disinfectants (meeting EPA Guidance current at time of pandemic)
  - Facility will calculate daily usage/burn rate to ensure adequate PPE

*Reference:*

*Policy and Procedure on Securing PPE/Emergency Supply of PPE*

*Vendor Contract List including information for Local and State OEM in EPM*

### **Recovery of all Infectious Disease Events**

#### **1. Activities/Procedures/Restrictions to be Eliminated or Restored (R)**

- The facility will maintain review of, and implement procedures provided in NYSDOH and CDC recovery guidance that is issued at the time of each specific infectious disease or pandemic event, regarding how, when, which activities/procedures/restrictions may be eliminated, restored and the timing of when those changes may be executed.

#### **2. Recovery/Return to Normal Operations (R)**

- The facility will communicate any relevant activities regarding recovery/return to normal operations, with staff, families/guardians and other relevant stakeholders.

SUNHARBOR MANOR  
PANDEMIC EMERGENCY PLAN

- The facility will ensure that during the recovery phase all residents and staff will be monitored and tested to identify any developing symptoms related to the infectious agent in accordance with State and CDC guidance.
- The facility will screen and test outside consultants that re-enter the facility, as per the NYS DOH guidelines during the recovery phase.

*Reference:*

*Policy and Procedure staff testing during pandemic*

*Pandemic Recovery/Transition Statement*
